Reference Materials

Additional reference materials are not required for this course.

Course Description

The ITIL® Awareness workshop provides a high level overview of IT Service Management and IT Service Management Best Practices based on ITIL®. Participants will learn the principles, core elements and benefits of the Service Lifecycle approach to IT Service Management according to ITIL®. This course can be given as a lecture only or with the Wall Street Service Management simulation experience (classroom only).

The Wall Street simulation is Quint's unique approach to enhancing the Service Lifecycle learning experience in that it allows the students to experience for themselves how Service Management can be of benefit to an organization.

Course and Learning Objectives

- Gain a basic understanding of the main processes, relationships, benefits and challenges of ITIL®
- Gain insight into the holistic Service Lifecycle approach that forms the core of ITIL®
- Understand how these processes contribute to making an IT organization manageable

Course Approach

Participants will learn the principles and core elements of the Service Lifecycle approach to IT Service Management according to ITIL®. An interactive approach is used combining lecture and discussion. The Wall Street simulation is optional for the full day instructor led course.

The workshop can be delivered as either a half day or one day session and can involve an initial customer intake to increase the situational awareness of the instructor.

Empowering Professionals

Quint Academy is one of the world's largest IT training organizations. Worldwide, over 30,000 professionals choose Quint Academy every year. Since 1992, we have been successfully responding to the IT training needs of these professionals.

The portfolio of courses offered by Quint Academy is at the interface of business and IT, at the strategic, tactical and operational levels. The courses cover the entire spectrum of IT: Strategy, Business Information Management, Governance, Sourcing, Architecture, Innovation, Information Risk Management, IT Management, Lean IT & Agile, Portfolio Management, Program Management and Project Management. The curriculum of each course is aligned with the needs of the individual IT professional, from CIO to helpdesk co-worker. In our courses, we focus on imparting knowledge and know-how (hard skills) and we concentrate in particular on changing behavior and attitudes (soft skills).
